DETAILED ACTION

Specification

1. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. **Claims 1-11 are rejected under 35 USC 102(e) as being anticipated by Gordon et al. (patent number 6,289,323, hereinafter referred to a "Gordon").**

Gordon teaches all the limitations of Claims 1-11. For example, Gordon disclose an online customer submitting a value message to a merchant to purchase goods (see at least abstract; Fig. 1 (12, 16); col. 1, line65 through col. 2, line 40). Gordon further discloses:

Art Unit: 3625

- Memory device for storing customer identify and shipping address, a receiver: (see at least Fig. 1 (12, 14, 16); col. 3, lines 5-25).
- A processor: anonymous customer, disguised shipping address (see at least Fig. 7 (504); Fig. 9 (72); col. 1, line 65 through col. 2, line 40).
- Sufficient funds to place order: valid value message; sufficient funds (see at least col. 3, lines 35-45).
- Confirmation message: send confirmation to customer (see at least Fig. 7 (504-6); Fig. 8 (606); col. 13, line 29 through col. 14, line 64).

Pertaining to Claims 5-9

Method claims are rejected based on the same rationale as noted above.
